his guide includes all native and naturalized tendrillate climbers, lianas and vines, known to occur at elevations over 700 m in the mountains of Costa Rica. Because the distribution of most of these species extends not only below 700 m but also outside the borders of Costa Rica, this guide is useful throughout Central America and sometimes beyond.

Passiflora biflora, the twoflowered passionflower, is a vine with paired peduncles and flowers up to 3.5 cm (1.4 in) wide. It is native to the New World from Mexico to Colombia and Venezuela. In Florida, P. biflora has been classified by the Exotic Pest Plant Council as a non-native species that has the "potential to disrupt native plant communities."
